

Estimating a decimal sum or difference: Worksheet 7.2

Name Date Score

1. Estimate the sum after rounding each number to the nearest tenth $76.09 + 23.41 - 9.70 - 8.52$
2. Estimate the sum after rounding each number to the nearest tenth $58.07 + 9.43 - 12.51 - 18.21$
3. Estimate the sum after rounding each number to the nearest hundredth $65.275 + 48.124 - 18.859 - 8.378$
4. Estimate the sum after rounding each number to the nearest tenth $57.07 + 32.67 - 18.75 - 8.58$
5. Estimate the sum after rounding each number to the nearest tenth $78.67 + 85.61 - 21.67 - 9.67$
6. Estimate the sum after rounding each number to the nearest hundredth $58.123 + 92.478 - 39.871 - 8.545$
7. Estimate the sum after rounding each number to the nearest tenth $49.91 + 63.31 - 19.60 - 9.72$
8. Estimate the sum after rounding each number to the nearest tenth $52.1 + 56.41 - 18.9 - 6.37$
9. Estimate the sum after rounding each number to the nearest hundredth $48.098 + 19.547 - 18.415 - 12.46$
10. Estimate the sum after rounding each number to the nearest tenth $88.65 + 32.84 - 11.33 - 7.93$

Solutions: Worksheet 7.2

1. 81.3
2. 36.8
3. 86.16
4. 62.4
5. 132.9
6. 102.18
7. 83.9
8. 83.2
9. 36.77
10. 102.3
